NEWS RELEASE

Karin Receives Prominent Certified Partner Recognition by Oracle Corporation

Singapore, Oct 20 2009 – Singapore Exchange (“SGX”) Mainboard listed Karin Technology Holdings Limited (“Karin” or the “Group”), a leading IT and components solutions and services provider in Hong Kong and the People’s Republic of China (“PRC”), is pleased to announce that its wholly owned subsidiary, Kepro Solutions Limited (“KEPRO”), has received the Certified Partner (“CP”) recognition from Oracle Corporation (“Oracle”) with immediate effect. KEPRO was previously a Value-Added Reseller (“VAR”) of Oracle.

Oracle only presents the CP recognition to selected partners whom it views are of high competence with great potential. With this recognition, Karin now includes Oracle’s range of advanced value-added solutions along with superior levels of professional services for its customers into its portfolio.

Executive Chairman of Karin, Mr. Philip Ng, commented enthusiastically, “Being recognized as a Certified Partner reflects Karin’s strong partnership with Oracle and the Group’s commitment to enrich its product and solution offerings to customers. Our customers can be assured of receiving the highest standards of value-added solutions by one of the biggest global IT corporations in the world. This recognition marks yet another milestone for Karin, where the Group is acknowledged as a reliable and credible leader in the region’s distribution market by reputable technology partners. We believe this will boost our presence in the market and greatly benefit the Group and increase shareholder value in the near future.”

Karin has been distributing Oracle's complete suite of technology products, including Oracle Database, Oracle Fusion Middleware and Oracle Business Intelligence since July 2009. It was the Group's dedication in building a strong working relationship with Oracle, in market exploration and developing partnership programmes to enhance Oracle's standing among resellers that contributed to this prominent appointment.

Mr Ng continued, "Once again, our perseverance, dedication and commitment to Oracle's systems were key factors in helping us secure this recognition. The Group will continue building strong long-term partnerships with other distinguished technology partners to enhance our array of product and solution offerings."

About Karin Technology Holdings Limited

Listed on the Mainboard of the Singapore Exchange in 2005, Karin is a leading IT and components solutions and services provider in Hong Kong and the People's Republic of China ("PRC"). Since 1977, Karin has been principally engaged in the electric components and computer distribution business for various segments of the electronics industry, including the communications, computer, electrical appliances and utility segments. In view of the increasing demand for IC software application solutions in the 1990s, Karin expanded its business to include the provision of outsourcing services such as IC application design solutions and data storage management solutions.

Karin has also in 2007 acquired IMI Kabel Pte Ltd, a Singapore based distributor of a full range of cable products, including data control cables, connectors, power voltage cables, connectively cable products, accessories and equipment for various applications for a variety of industries ranging from industrial automation to port and shipyard, offshore oilfields and petrochemical facilities.
