Karin Adds 2 New Global Brands, SAP in Hong Kong and Arista Networks in Hong Kong and Macau

Singapore, 3 November 2011 - SGX Mainboard-listed Karin Technology Holdings Limited (“**Karin**” or together with its subsidiaries, the “**Group**”), a leading Hong Kong-based electronic and industrial components and IT solutions distributor and outsourcing service provider, is pleased to announce two new distributorship agreements with enterprise application software specialist, SAP, in Hong Kong and market leader in cloud networking, Arista Networks (“Arista”) in Hong Kong and Macau.

The agreement with SAP is with Karin’s subsidiary, Compucon Computers Limited (“**CCL**”), and it covers the distribution of its Crystal Solutions portfolio of tools and applications. As part of the agreement, CCL will also provide a dedicated sales, marketing, technical and pre-sales support team for SAP’s products.

The agreement with Arista is with another of Karin’s subsidiary, Sen Spirit Technology Limited (“**SST**”), and it is for the distribution of its full suite of cloud networking products.

Both CCL and SST enjoy well-established leadership positions in IT products distribution in the region and the new partnerships are expected to expand SAP’s and Arista’s existing distribution network, as well as increase the availability of their products in the region.

For Karin, the new vendors strengthen its distribution portfolio of leading global brands in its IT Infrastructure business and also reinforce its strong reputation as a reliable partner with the ability to value-add.

Mr. Philip Ng, Karin’s Executive Chairman commented, “Both SAP and Arista are market leaders in their fields and their solutions are very much sought-after. We are proud to be working with them to increase the availability of their products in Hong Kong and Macau.”

SAP’s Crystal Solutions enable users to manage information and capitalize on available data to make informed business decisions, optimize their performance and increase accountability for the benefit of corporate governance.

Arista’s cloud networking solutions change the scale of datacenters and enable businesses to store and deal with a deluge of information.

###

About Karin Technology Holdings Limited

Listed on the Mainboard of the Singapore Exchange since 2005, Karin is a leading electronic and industrial components and IT solutions distributor and services provider in Hong Kong and the People's Republic of China ("PRC"). Established in 1977, Karin has been principally engaged in the electronic and industrial components and computer distribution business for various segments of the electronics industry, including the communications, computer, electrical appliances and utility segments. Karin expanded its business to include the provision of outsourcing services such as IC application design solutions and data storage management solutions, riding on the increasing demand for IC software applications in the 1990s.
