Compucon Computers bags distributorship for Extreme Networks' products in Hong Kong

HONG KONG, December 15, 2016 — Compucon Computers Limited (“**Compucon**”), a subsidiary of SGX Mainboard listed Karin Technology Holdings Limited (“**Karin**” or together with its subsidiaries, the “**Group**”), a leading Hong Kong-based componentry and IT solutions distributor, outsourcing service provider and consumer electronics products distributor has been appointed by Nasdaq listed Extreme Networks, Inc. (“**Extreme**”) as its new distributor in Hong Kong with immediate effect.

Extreme offers software-driven networking solutions to build an IT infrastructure that’s fast, resilient and can tune itself to the demands of users, applications and security threats — from wired to wireless, desktop to datacenter. This in turns enables their corporate clients to leverage their organizational networks to build stronger connections with their customers, partners, and employees.

Karin’s, Executive Chairman and CEO, Mr Raymond Ng, said: *“As it is our Group’s objective and focus to be a leading network and security solutions provider, it gives us great pleasure to add this leading brand to our growing portfolio. I believe that Extreme will benefit from Compucon’s reputable track record, strong distribution channels and industry partnerships, which will enable it to gain greater visibility and marketshare in Hong Kong.”*

As part of the distributorship agreement, Compucon will secure business opportunities for Extreme, which will then provide the expertise in the areas of support capacity, coverage, security and segmental requirements across industrial, healthcare, manufacturing, education, retail sectors as well as other demanding verticals.

Mr Wilson Ching, Regional Director, Hong Kong and Macau, Extreme Networks, said: *“Compucon has the network, expertise and market penetration to complement the capabilities and offerings of Extreme, which in turn will unlock new levels of business opportunities for us. We are confident that Compucon and Extreme Networks will bring added value to our customers and significantly expand our footprint in the region.”*
